# opfguide.\_.Reporting and Rewards for Replaying

Replays of repeatable adventures or using granted or purchased Replays earn rewards for the playthrough normally; that is, they earn a Chronicle and the same rewards a first-time player would earn. They get access to any boons and items on their Chronicle Sheet, as well as currency, XP, and Reputation, all subject to the outcome of the scenario.

When reporting a scenario replayed using a granted or purchased Replay, the GM checks the “Consume Replay” box next to the character’s information so they earn full credit for the scenario.

GMs do not record or report organized play numbers of players replaying for no credit.
